# About Us

## CONTRACTORS AND DO-IT-YOURSELFERS

We have changed our inventory to concentrate on event rentals. We do still carry a few contractors and do-it-yourselfer pieces and they are listed in our pricelist. At this time we are also servicing equipment on a limited basis.

Delivery is available to our customers. We charge a fair delivery and pickup charge for our equipment. The rate depends on the town we are delivering to. Delivery charges do vary based on the latest fuel costs and we suggest you call to get the latest rate for your area.

We also provide sales and service to our customers. New and used equipment is sold throughout the year and we also service the brands that we rent or sell.

It is our policy to be sure you fully understand how to operate every piece of equipment that you rent from us regardless of whether you have used the equipment before or are a novice. When you rent from us, you will have the confidence and know-how to complete your task with ease. We will also make sure that you have all of the necessary accessories that you need to finish the project.
